‖ Candidates wishing up in Type writing must bring with them their own type-writer—the Remington, Yost, New Century, Smith Premier, Densmore, Empire or Underwood machine. The candidates will be arranged in batches, but at least *every few* candidates for the *Elementary* grade, at least *every few* candidates for the *Intermediate* grade and at least *every* third candidates for the *Advanced* grade must have one machine among them.

3. The following are the centres at which the *Written* examination will be held in the above subjects :—

Arni.	Lowdale (Ootacamund).	Salem.
Bangalore	Madras.	Tanjore'
Bellary.	Madura.	Tinnevelly.
Berwada	Mangalore.	Tirupati.

Chittoor.	Mysore.	Trivandrum.
Coimbatore.	Nazareth	Vizagapatam.
Kumbakonam.	Pudukkottai	
Kurnool.	Rajahmundry.	

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *thirty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

4. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, which must invariably be the place where he is employed or ordinarily resides, or should it not be a centre, the place nearest to it where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

5. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place, if he is satisfied that not fewer than *thirty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 20th January. Ordinarily, however, only one place will be constituted a centre for each district.

6. The oral and practical examinations in such subjects as requires them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

N B—*To guard against disappointment in the case of such of the Oral and Practical examinations as may be held before the Written examination, candidates are recommended to refer to Part I-B of the* Fort St. George Gazette *from time to time.*

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognised by the Director of Public Instruction, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils*.

N B—Heads of institutions recognised *for General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up *for* any of the Technical examinations.

8. All pupils coming up from the same institution must select the same centre. And the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no applications of any *private* candidates being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, *before the 31st January*, the necessary drawings, plans, surveys, field books estimates, or other "certified works". Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of Supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are specially warned that no certified works will be valued by examiners unless the certificate of authorship is in each case quite satisfactory, and specifies clearly the period of time occupied in the execution of each work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificates. Further, if any suspicion attaches to any certified works submitted by pupils from Technical Schools, the Commissioner will be compelled to recommend to the Director of Public Instruction the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (i.e., the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. *Also, on the outside of each roll for each subject, each candidate should enter the following particulars* in ink :—

(1) Name of candidate,	(4) Grade, and
(2) Place of examination,	(5) Total number of drawings in each roll.
(3) Subject,	

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a *separate* cover and *not rolled up* with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English on *printed forms so that they reach the Commissioner's Office on or before the 31st January, after which date no applications will be received.* Only one form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

11. Candidates in the mofussil should obtain the required application forms from the treasury of the taluk in which they are resident or of the district to which they belong. Candidates who are residents of Madras should apply for application forms at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam, and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mofussil requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations :—

	Elementary.	Intermediate.	Advanced.
	Rs.	Rs.	Rs.
For each subject	3	5	10
For each stage where a subject is divided into stages		2½	5

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Bank of Madras, and the receipt given by the Treasury Officer or the Bank of Madras attached to the application, which must in every case reach the Commissioner's Office on or before the 31st January. *On no account will the fees be received in the Commissioner's Office, whether sent in cash or by Post Office orders. No application will be registered unless it reaches the Commissioner's Office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fees should be collected by the Headmaster and sent as a lump sum in the Bank of Madras together with two lists of the pupils, one of which will be retained by the Bank and the other signed and returned to the Headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.*

14. Each application should be sent direct to the undersigned, post paid, superscribed and addressed as follows, the receipt for the fee paid *being securely fastened to it.*

☞ Candidates are warned that the application itself *should not be enclosed* with any drawings, plans, surveys, field-books, estimates, or other "certified works" that may be sent, but should be submitted in a *separate* cover.

[*Application for admission to the Government Technical Examinations.*]

To

The Secretary to the Commissioner
for Government Examinations,

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose *an addressed post card in their respective applications.* The post card should bear the sender's address only, and no other writing. Such post cards will be returned to them in due course with the "Received" stamp of the office impressed upon them. No other form of acknowledgment except that required by the postal rules regarding registered covers can possibly be given, nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

15. Candidates should write their names, their father's names, and their house names *distinctly* and *in full* in their applications and give their *addresses in full* also; if "Other Hindus", they should state in column 3 of their applications whether they are "Non-Brahman Caste Hindus", or "Parchamus". Applications defective in any particular will be returned.

NOTE.—*The occupation or profession of candidates, or the appointments held by them should invariably be stated—in full—in column 10 of their applications.*

16. *The fee paid will, in no case whatsoever, be refunded, nor will it be reserved for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the notifications carefully and satisfy themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the written, or the oral and practical examinations.*

17. Candidates for the Intermediate or Advanced examinations whose names have already been published in the Gazette as having passed a particular stage or stages in subjects in which the examination is divided into stages, or as having passed the Intermediate (late Preliminary), where the examination is of two grades—Intermediate and Advanced—must in their applications cite the date and page of the Gazette in which their names appear and their number in the list of successful candidates.

18. Subject to any change that it may be necessary or convenient to make in the arrangements, the Written examination will be conducted in the order of time and subjects shown in the following table, beginning each day at 10 o'clock in the forenoon and 2 o'clock in the afternoon except in the

case of Type-writing for which the arrangement is different as shown in the time-table. *Candidates will not be allowed to come up in more than one of the subjects bracketed together for the same time on the same day, or for more than one grade of examination in the same subject in the same year.*

NOTIFICATION.

REVISED RULES FOR THE SUPERVISION OF BREWERIES.

No. 1.—In virtue of the power delegated under clause XIII (4), (6) and (10) of Government notification No. 186, dated 13th July 1896, and under clause IV of Government notification No. 121, dated 17th February 1908, the Commissioner of Salt, Abkári and Separate Revenue makes the following rules in supersession of those contained in Government notification No. 70, dated 12th February 1903, published on pages 189 to 192 of the *Fort St. George Gazette*, dated 17th February 1903, Part I, as amended by Government notification No. 182, dated 11th April 1905 :—

1. In these rules "Commissioner" means "Commissioner of Salt, Abkári and Separate Revenue", and "Board" means "Board of Revenue, Separate Revenue."

2. Any person desirous of obtaining a license for a brewery shall apply to the Abkári Deputy Commissioner through the Inspector of the Distillery Circle within the limits of which the brewery is situated. The application shall be accompanied by a treasury receipt for Rs. 15 and a full description (hereinafter called an entry) of his premises and utensils, in which the purpose of, and the distinguishing mark on each room, place and vessel shall be clearly specified. The entry will be checked either by the Distillery Inspector or some other officer authorised to inspect breweries, who will certify to the fact if he finds it correct and submit it with the brewer's application, the treasury receipt and his remarks to the Abkári Deputy Commissioner, who, if satisfied with the entry and that the applicant is a fit person to receive a license, will issue a license accordingly.

NOTE.—Persons desirous of constructing new buildings or equipping already existing buildings to be used as breweries are advised, before commencing the work, to submit plans of the buildings and descriptions of the plant to the Abkári Deputy Commissioner for approval. Any alterations and additions suggested by the latter officer should be duly attended to, and persons neglecting to comply with such suggestions will run the risk of being refused a brewery license.

3. Licenses shall be in such form and for such period as the Commissioner from time to time may prescribe and may be renewed. Each application for renewal shall be made to the Distillery Inspector at least one month before the expiration of the license and shall be accompanied by a treasury receipt for Rs. 15. A copy of the entry shall also be filed unless there has been no change in either the buildings or the plant upon the issue of the previous license, in which case it will suffice if the surveying officer endorses that fact upon the application. The Distillery Inspector will submit the application with its enclosures to the Abkári Deputy Commissioner who, if he sees no reason to the contrary, will renew the license.

4. An officer (hereinafter called the surveying officer) will be appointed by the Commissioner to take account of all the operations in the brewery, and it shall be competent for him, or for any other officer authorised to inspect breweries, to enter the building and visit and examine any room, place or utensil mentioned in the entry at any time either by day or night.

5. All mash-tuns, coppers, coolers, fermenting and racking or settling vessels shall be so placed and fixed, and underbacks so placed, as to admit of the contents being accurately gauged and measured. Before being taken into use all such vessels shall be gauged jointly by the Distillery Inspector and the surveying officer under the rules in force for gauging stash vessels, and tables shall be constructed showing the total capacity of each vessel in imperial gallons (in the case of mash-tuns in imperial bushels) and in the case of mash-tuns, fermenting and racking or settling vessels, its capacity for each tenth of an inch in depth. In the case of underbacks, coppers and coolers, dimension tables only need be constructed. These tables before being taken into use shall be certified by the brewer or his accredited agent to be correct.

6. The name, or an abbreviation thereof, of each room or vessel shall be conspicuously painted thereon, and where more than one room or vessel is used for the same purpose they shall be distinguished by progressive numbers. Any room or vessel entered for a specific purpose shall be used for that purpose solely.

7. No repairs shall be executed to either buildings or plant and no alteration shall be made in the position or capacity of any gauged vessel without the sanction in writing of the surveying officer or of his superior officer. Before any vessel so altered can be again taken into use it shall be regauged and new tables shall be constructed if necessary. In the absence of the Distillery Inspector and to avoid delay, such regauging shall be effected by the surveying officer and such other officer as the Commissioner may direct, their results being checked by the Distillery Inspector on his next visit to the brewery. No addition either to buildings or to plant shall be made without the previous consent of the Commissioner, and, on completion, the existing entry must be withdrawn and a new entry made.

8. Where beer is stored in casks which are used exclusively for storing beer and not for issue from the brewery, such casks shall be numbered consecutively and each shall have marked on both heads its number and capacity which shall be entered in a register to be kept by the brewer in a form prescribed by the Commissioner, and also the number of the brew in which the beer was manufactured. Any cask removed for repair or recoopering shall be regauged before being taken into use again and, if the capacity has been affected, a new entry shall be made in the cask register. The number of the brew shall also be painted on both heads of casks in which beer is issued from the brewery.

9. The surveying officer will be provided by the Department with proper gauging rods and a standard saccharometer and thermometer. If the brewer questions the correctness of the instruments or the results obtained by the officer he must put in a written protest immediately. This will be forwarded with his remarks by the officer to the Distillery Inspector who, after due enquiry, will report the matter for the orders of the Abkári Deputy Commissioner.

10. Each licensed brewer shall keep, in some part of the brewery which has been approved by the Distillery Inspector, a brewing book in such form as the Commissioner may prescribe. This book, which is the property of Government, will be supplied to him at the beginning of each quarter and shall be taken up at the end of each quarter by the surveying officer; and it shall be accessible by

day or night to all officers authorised to inspect the brewery. In this book the brewer, or some responsible person employed by him, whose name has been approved by the Abkári Deputy Commissioner shall accurately enter the particulars of each brewing. The book shall not be in any way defaced or mutilated and the loss of it will entail immediate suspension of the brewer's license and if, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper columns, at least 24 hours before beginning to mash malt or grain or to dissolve sugar, the day and hour of brewing and in the remarks column the consecutive number of the brew and the word "Nature" or "English" as the case may be, with the date and hour of making the entry, and at least six hours before the time entered for mashing or dissolving he shall enter accurately in the proper columns the quantities of malt or unmalted corn, sugar or glucose and of hops or hop substitutes to be used and the hour when all the wort will be drawn off the grains in the mash-tun. He shall also enter in the appropriate columns the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed, or if the worts be not collected before 6 P.M., the entry shall be made before 8 next morning. If fermentation has started before the requisite entry has been made, the brewer shall enter the true original gravity of the wort. Each entry shall be initialled by the brewer or his agent.

12. Beer shall be brewed from good materials and its quality shall be such as to satisfy the Commissioner. Wort shall not be brewed of a higher gravity than 1075°. Nothing shall be added to beer after it has been racked and removed to a beer store, except finage or other material approved by the Commissioner. Beer in beer stores must not be diluted and any beer found in store which has been either diluted or in any way adulterated will be liable to forfeiture. The forfeiture of the beer will not relieve the brewer from the penalty of fine or cancellation of license prescribed under rule 21.

13. Officers surveying breweries shall make a complete survey of the whole of the brewery plant on every day on which they visit a brewery, showing, in the proper columns in a survey book, the form of which will be prescribed by the Commissioner, the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be fining, when, except in case of suspicion of fraudulent addition of saccharine matter or of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a similar book and will be left at the brewery for the information of the brewer.

14. Each brewer shall keep a stock account in such form as may be prescribed by the Commissioner in which he shall daily enter the nett quantity of beer brewed by him, the quantity, if any, returned and brought into stock after verification by the surveying officer or other officer authorised to inspect breweries, and the total quantity issued. Each issue to any place within the Madras Presidency shall be accompanied by a permit the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered and before any permit book is taken into use it shall be examined by the surveying officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be exported to places outside the Presidency. Application for such permits should be made to the Collector of the district who, if he sees no reason to the contrary, will grant a permit and send a letter of advice to the officer in charge of the brewery. The permit must accompany the consignment. All such letters of advice and the counterfoils of permits issued by the brewer must be retained for at least a year. The stock book will be checked at least once in each week by the surveying officer; the quantities of beer brewed entered in it being compared with the entries in his survey book and the quantities of returned beer being compared with the statement of verification by the officer and the issues with the counterfoils of permits issued and with the letters of advice from the Collector, if any.

15. No entry in any of the books kept by a brewer under these rules shall be erased or over-written. Should it be necessary to correct any entry a line should be drawn through the incorrect entry in such a manner as to leave it distinctly visible and the amended entry should be inserted above it. Every correction shall be initialled by the person making it at the time and by the surveying officer on his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Distillery Inspector with the surveying officer's remarks. A mashing or sugar dissolving entry may be cancelled if the brewer does not wish to act upon it by writing the word "cancelled" across the columns devoted to materials in the brewing book. But, if those columns have already been filled in, the figures must not be erased or crossed out and the word must be written in other blank spaces. In such cases a written explanation should be obtained from the brewer and submitted to the Distillery Inspector with the surveying officer's remarks.

16. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the surveying officer or any other officer authorised to inspect breweries. Samples of the wort during fermentation shall be taken by the surveying officer, at least once in each quarter, in accordance with such instructions as the Commissioner may issue and shall be forwarded to the Board's laboratory for analysis. On any other occasion on which samples are taken, either of wort or beer, the officer taking them will submit a special report to the Distillery Inspector or the Abkári Deputy Commissioner explaining the reasons for sampling and the nature of the analysis required. Samples of brewing materials will be taken only if called for by the Commissioner. When, however, there is a large discrepancy between the quantity of malt or unmalted corn entered in the brewing book and that of the grains in the mash tun, a sample of the grains should be taken and at once sent for analysis with a report giving a copy of the entry in the brewing book, the dip of the grains in the mash-tun, the quantity represented by the dip and the percentage of increase or decrease. On this report and after examination of the sample, the Commissioner will pass such orders as he thinks fit.

17. The stock of beer in every brewery will be taken at least twice in each year by the Distillery Inspector or such other officer as the Commissioner may direct. Stock shall only be taken at other times by the surveying officer or other officer lower in rank than the Distillery Inspector if there is

any suspicion of fraudulent practices. On all occasions the results will be immediately reported to the Commissioner, in the latter case with the reasons for taking stock. The explanation of the brewer for any excess or deficiency exceeding one per cent. found in stock should be obtained before the report is submitted. The Commissioner will pass orders whether any, and if so, how much duty shall be claimed in regard to such excess or deficiency.

18. The Distillery Inspector after careful examination of all the books will submit to the Board at the end of each quarter an account showing the quantity of beer actually brewed less 5 per cent. allowed for wastage, and the duty thereon calculated at the rate of two annas per imperial gallon or at such other rate as His Excellency the Governor in Council may prescribe from time to time under section 17 of the Madras Abkári Act, 1886. On this account the Commissioner will pass orders as to the amount of duty to be paid.

19. The brewer shall pay the duty demanded into a Government treasury within five days of the receipt of an advice as to the amount due. The Distillery Inspector will notify both the Collector of the district and the Commissioner of the date of delivery of the advice. The Treasury officer will grant a receipt to the brewer for all such payments and send a letter of advice to the Distillery Inspector and the Collector will notify the date of payment to the Commissioner. Interest at the rate of 6 per centum per annum will be charged on all amounts not paid within the notified time.

20. If a brewer objects to the amount of duty demanded from him he may move the Commissioner to revise the charge. But no revision will be undertaken unless and until all sums demanded under rule 18 have been paid. In the event of the original charge being found incorrect, any excess levied from him will be refunded to the brewer, and if the amount claimed from him is found to be less than that actually due he will be called upon to pay the difference at once into a Government treasury.

21. In case of any breach of these rules or of the conditions of the license either by the brewer or by any person in his employment, it shall be competent for the Commissioner to impose a fine not exceeding Rs. 50 for each such breach or to suspend or cancel the license, or both.

22. The imposition of a fine or the suspension or cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which he may commit against the provisions of the Madras Abkári Act, 1886, or other law for the time being in force. If, on such prosecution before a Magistrate, a brewer be convicted it shall be lawful for the Commissioner to declare his license forfeited.

23. Brewers shall be bound by all additional rules for the control of breweries which may hereafter be prescribed under the existing Abkári law or under any law which may hereafter be enacted and by all special orders issued by the Commissioner with regard to individual breweries and shall cause all persons employed by them in their breweries to obey all such rules.
